

## Prickly Pears

---

The prickly pears are appreciated in the Mediterranean areas . This is the most popular fruit in Tunisia. It is usually called "The Sultan of fruit." This exotic fruit, strange and fascinating is appreciated by consumers not only for its flavor but also particularly for its nutritional qualities.

The name "prickly pear" was given since the Middle Ages on the coast of North Africa, where the fruit is particularly well established.

This fruit is used by Berber as basic food, it is rich in vitamin C, in minerals and trace elements. very rich in fiber and low caloric Berber women also used it to heal and protect their skin from the hot desert wind.

Scientists find that woman in advanced age, has a beautiful skin firm and wrinkle, they discovered that the prickly pear seed oil is the origin of their youth.

The oil is obtained by first cold pressing of the seeds contained in the cactus fruit (*Opuntia ficus indica*). This oil is processed manually and mechanically (no heat is used) and filtered naturally without any processing or refining operation. By following this process, we try to preserve the nutrients and benefits of the oil.

It is precious, rare and 100% pure serum incredibly effective. It lessens wrinkles, smooths the eye contour, restructuring, nourishing, strengthens the hydrolipidic film and gives tone to the skin. It has a deep lift effect thanks to omega 3, 6, 7 and 9. The prickly pear seeds oil is rich in essential fatty acids including more than 68% of linoleic acid and vitamin E. It stimulates ceramide.

This oil is an exceptional ally in the fight against skin aging.

## Slim Down : Prickly Pear vinegar

The most effective of all vinegars, Prickly Pear Vinegar has extraordinary properties to avoid overweight:

It improves digestion and decreases belly bloating. It allows the destruction of fat cells. It forces the body to burn fat faster, even in a state of rest. It captures water trapped in tissues to allow the body to eliminate it.

It contains amino acids that regulate appetite and help control nervousness that often hinders the process of slimming down.

It regulates blood pressure. In addition, it is effective in avoiding high cholesterol, obesity, colitis, diarrhea, benign prostatic hypertrophy and viral infections.

Our Prickly Pear vinegar manufacturing process is 100% natural without any chemical additives or accelerators.

We recover the fruit juice that leads to a long process (up to a year) its fermentation is done in pottery jars to guarantee a unique quality of the vinegar thus allow the formation of the precious and capricious Mother of Vinegar: a kind of large gelatin composed of microscopic fungi and a very beneficial natural substance.
